### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Brian M. Berliner (Reg. 34,549) on December 1, 2005.

The application has been amended as follows:

The claims have been amended as follows:

On the Amendment dated September 9, 2005, in claims 13-15, after the limitation "The system of Claim"

**delete: 12 and insert: "10"**

**The following is an examiner's statement of reasons for allowance:**

The prior art of record fails to teach the limitations of independent claims 10, particularly: " an encoder for converting data from a first information form to data having an essence data portion and a metadata portion; a system server coupled with said encoder, said system server providing a plurality of common services for the system, a share server coupled with said system server, said share server having a plurality of communication protocols and a plurality of software development kits (SDKs), an intelligent media router (IMR) coupled with said share server, said IMR having a plurality of modules interconnected in a trusted relationship, said plurality of modules providing a plurality of routing functions for the system... wherein said plurality of communication protocols and said SDKS of said share server allows said third party imaging input and output systems to remotely utilize said plurality of modules of said IMR, a first module of said IMR tags said metadata portion of said data with metadata for routing said data, a second module of said IMR directs the data for distribution by information distributors based on said tagged metadata, and a third module of said IMR converts said data into a second information form acceptable for distribution by the information distributors." is not found in the prior art of record.

Dependent claims 13-17 incorporate the listed limitations by reference and contain limitations that further distinguish over the art of record. For these reasons, claims 13-17 are considered allowable over the art of record.
